

CNRS 2020 research competition

Join Pprime (France), team «Incompressible Turbulence and Control»

- Section 10: Fluid and reactive media : transport, transfer and transformation processes
- Project on aspects covering **analysis, modeling and development of control strategies** for turbulent flows and heat and mass transfers
 - « **Model-based** » or « **Machine Learning** » control strategies
 - **Data assimilation techniques**
 - **Coupling of scientific computation/experimentation**

- Contact: Laurent.Cordier@univ-poitiers.fr
